To whom it may concern:

Having been in the construction industry for more than 40 years it is my pleasure to recommend Moore Trosper Company for any of your construction needs.

I have been associated with the principals of Moore Trosper Company for many years, and have a very good working relationship with them since their inception. This relationship started with Harold and continues to this day with Brian.

While there may be equals to Moore Trosper Company, I believe here are none better in their field. Their efforts to control costs, and deliver a quality product to the end user is well documented in our industry.

Construction by it's very nature, can be a difficult process for owners and contractors alike. Moore Trosper has the unusual ability to bring all sides together in a team effort to solve problems to the betterment of all parties.

Subcontractors understand working on a project with Moore Trosper demands a large degree of integrity and professionalism, consequently we have found they insist on using only the best subcontractors in their field in order to deliver a product to the end user that is second to none, both in quality and value.

We do not give recommendations lightly, but Moore Trosper has earned our trust many times. Feel free to contact me with any questions concerning this matter

Sincerely

Jerry Jehnzen
President
