

June 19, 2025

To Whom It May Concern,

It is with great confidence and sincere appreciation that I write this letter of recommendation for Moore Trosper, who served as a vital partner to Central Lake Public Schools in our successful effort to pass a bond proposal in May of 2025.

This achievement was a historic milestone for our district—the first bond passed in nearly 30 years, following a previously unsuccessful attempt in November of 2023. The success of the May 2025 bond proposal was due in no small part to the dedication, professionalism, and strategic support provided by Moore Trosper.

Throughout the process, Moore Trosper was integral in supporting the "Yes Committee", the group tasked with engaging and informing our local community. Their team provided timely resources, expert guidance, and a calm, knowledgeable presence at community forums. They helped us effectively communicate the goals and long-term benefits of the bond proposal to citizens, ensuring transparency, trust, and a shared vision for the future of our schools.

As Superintendent of Central Lake Public Schools and lead for the bond proposal, I can confidently say that Moore Trosper's collaboration was a cornerstone of our success. Their work not only helped us overcome previous challenges but also helped build a stronger connection between our schools and the community we serve.

I highly recommend Moore Trosper to any district or organization seeking a dedicated and experienced partner in community engagement, public communication, or bond initiative support.

Sincerely,

Dr. Ryan L. Cunningham, Superintendent, Central Lake Public Schools
